DIMENSIONS	H: 4 in (10.16 cm) W: 6 in (15.24 cm) D: 6 in (15.24 cm)

About this piece

c.1900. A **Vaseline glass** shade of **mushroom form**, its softly rounded body flowing into a narrow neck and flared rim. The surface shows subtle green and blue opalescence with a gentle uranium luminescence under ultraviolet light. Typical of the **Arts and Crafts Movement's** experimentation with hand-blown coloured glass, the shade combines restrained organic shaping with a distinctive material glow characteristic of early twentieth-century British decorative lighting.
