### About this piece

This **spirit kettle** in **copper** sits within the *Arts and Crafts* (1880–1910) tradition, **c.1900**, English. A rounded body with a beak spout and loop handle sits above a cylindrical reservoir, all raised on a tripod stand with three arched legs that curl out to steady the base. The burner sits beneath the pot so the kettle can be kept warm at table, the whole reading as clear geometry rather than heavy ornament, the hand polished surface catching light across the curves.
