About this piece

An exceptional period pair of Arts & Crafts hand-hammered & hand wrought iron gates with arched tops and deep floral leaf and scroll work decoration throughout. The quality and thick gage of the gates are of the highest quality and were made by a master blacksmith of the period. The gates are in great condition with thicker than usual scroll work and only surface rust below the paint. Restoration we can supply if required for an extra cost and would consist of Bead Blasting to remove all of the paint and rust then professionally spray painted with exterior powder paint and finally baked in an oven. They will restore to a high definition of decoration. I can request a quote from my paint specialists if required.
