About this piece

Style of Arthur Simpson of Kendal. Four lengths of early Arts and Crafts interior oak wall panelling with hand-carved roses, pomegranates and grapes to the upper sections and carved linen fold details to the lower sections topped with carved thistles and pomegranate flower heads. Would make a great counter front. Total length measures approx 9 feet 3 inches and 35 inches tall. Originally from a church, probably part of the choir stands. I also have another identical panel carved with the same details listed here. I will consider selling in two pairs.
