About this piece

Seven Glasgow style tub chairs. Attributed to EA Taylor and made by Wylie and Lochhead. Circa 1900. All the above are now sold but I do have one in stock at the moment which has twin stretchers to the sides and back which is the best one of this style I have had, professionally re upholstered in quality burgandy hide. I do come across these from time to time, please send me an e-mail with your requirements.
