MATERIALS Chrome, Leather

About this piece

A pair of black leather and Chrome Barcelona chairs with matching Ottomans/stools originally designed by Mies Van Der Rhoë for the German Pavilion at the 1929 Barcelona World Arts Fair in Spain. Van Der Rhoë designed the Barcelona chairs to compliment the pavilion, originally a one off design which were quickly accepted as a design classic. The Spanish Royals visited the Pavilion and sat upon them and likened them to thrones of the 20th Century.
